

Dear FCC, I urge you to reject the NAB'S petition 04-160. I am a trucker driver and XM instant traffic & weather helps in doing my job. I think that American's have the right to pay for something that they could get for free. XM is far better than broadcast radio because you get to listen to what you want or need to not what someone else wants you to. XM INSTANT TRAFFIC AND WEATHER is a helpful service and XM should be aloud to keep giveing there listers the channels the have now and be aloud to and channels. LIKE SATELLITE TV IF I WANT TO PAY TO SEE OR HERE SOMETHING THAN I SHOULD HAVE THE RIGHT TO DO SO.
